- Fingertip lift / lower buttons
- Two position braking control for increased safety
- Safety reverse switch
- 24v traction battery
- External charger
- Variable drive speeds
- Emergency stop button
- Diagnostics system

ER15 FAQs

Do I need a forklift licence to operate the ER15?

No, the ER15 does not require a forklift licence to operate, thus increasing efficiency in your business.

Is the ER15 easy to use?

Yes. It comes with all the controls you need within reach of either hand, on a centrally mounted tiller handle that has fingertip lift and lower buttons.

Does the ER15 come with power steering?

Yes, it comes with on demand power steering, so it's ready to help you when you need it.

Hand unloading is exhausting, is there a solution that's smaller than a forklift and can help me with this job?

Yes. The ER15 is a compact electric reach pallet stacker that is quiet, easy to use and is perfect for unloading and loading into the back of utes and vans.

Can the ER15 do the same work as a forklift?

Yes, with a maximum capacity of 1.5 tonnes.

How is the ER15 different from other pallet stackers?

Thanks to its pantograph reach function that allows it to reach and tilt, it delivers a more advanced solution than a standard pallet stacker. No more double handling when putting pallets down!

Can I get side shift with the ER15 or do I need to pay extra?

Great news, the ER15 comes standard with integral side shift function.

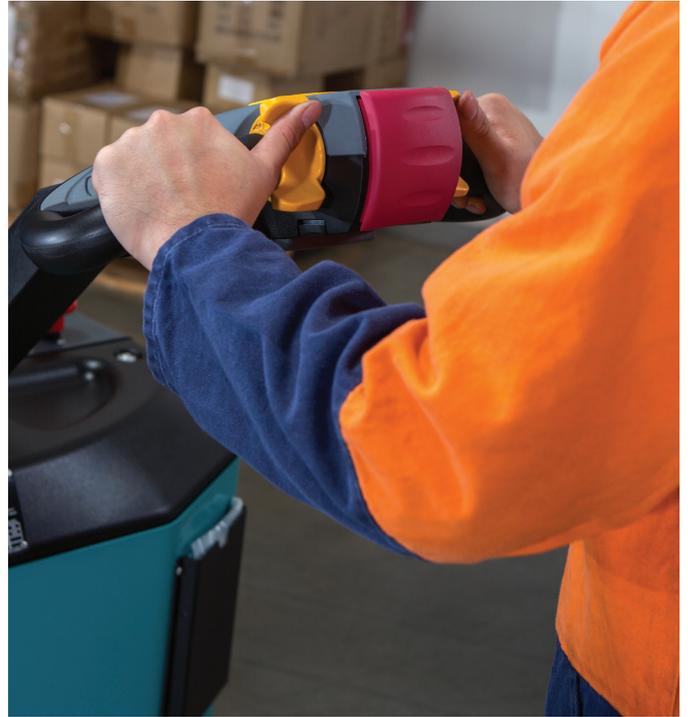

Can I use the ER15 to unload from the back of a ute or van?

Yes! The ER15's compact design and on demand power steering makes it easy to manoeuvre to load and unload from tight spaces, plus its pantograph reach function enables it to reach far into the ute tray or van as well.

Lift loads over 5 meters high with a reach of almost 600mm

Ergonomically designed tiller control

Power steering reduces effort when manoeuvring heavy loads

Centrally mounted tiller for excellent visibility of the load
